

PRESS RELEASE

July 22, 2009

Forberg Scientific Inc. enters into a purchase agreement with Automatic Controls, Inc.

Automatic Controls operations will integrate their operations into Forberg Scientifics' Troy, MI headquarters on October 1, 2009

Automatic Controls is a Michigan-based industrial manufactures representative. Automatic Controls, under its new ownership, will continue to be the Authorized Representative for its current supplier list including, Linc, MTL, Cameron, Hardy Instrument, TopWorx/Go Switch, and AI Tek.

As stated on Automatic Controls on-line buying web-site...

"Automatic Controls, Inc, a distributor of quality Industrial sensors and instruments has been in business for over forty years and is dedicated in meeting total customer satisfaction"

On the acquisition, Forberg Scientific Inc President Card Derian says " This opportunity brings more value to our existing customers and expands our product reach into new markets for our company.

For more than 38 years, Forberg Scientific (an ISO 9001:2000 company) has built a reputation in the Midwest for dependability, quality, experience and rapid delivery. Products from leading industry manufacturers include, instrument fittings and valves, pressure gauges and transmitters, gas detection, filtration, steam traps, pressure, flow, level, and temperature instrumentation. ds

Dedicated instrumentation specialists will be contacting you soon; however, please feel free to contact Carl Derian, its President at FSI/Automatic Controls.

Current customers and suppliers will be contacted shortly with details and answers to frequently asked questions.
